They Are Now 156 Years Old

The long and distinguished record of the Staffordshire Yeomanry - formed over 150 years ago from five troops of volunteer cavalry and now a regiment of the Royal Armoured Corps—is to be published in book form soon as an official history.

The work is being financed largely by officers of the regiment, with a grant from the Staffordshire Territorial and Auxiliary Forces Association, and is being written by Commander Kemp, R.N.

The Regiment was formed in 1794 to assist in the "internal defence and security of the Kingdom" during the war with France, and was at first administered by a Committee of deputy Lieutenants and magistrates who sat fortnightly at the Swan Inn, Stafford. Later the rame year the Staffordshire Volunteer Cavalry, as it was called, came into being and the original troops were raised at Newcastle, Stafford, Lichfield, Leck and Walsall.

Traditional dress was a red lacket with yellow facings, white waistcoat, white leather breeches and a helmet with a bearskin crest and a feather at the side. Arms consisted of a sword and pistol, and for its badge, it adopted the Stafford Knot. The title "The Queen's Own Royal Regiment," was conferred in 1838 to commemorate a visit from the

> INTELLIGENCE TEST **SOLUTION:** It there were m players in thivision I last year, the total number was 5m+4, and the

number of matches played was: gm (m-1)+(m+4) (m+3) So this year the total number of . matches played was: g (m+g) (m+1)+(m+5) (m+4)

The second expression is 148/100 of the former, and it is readily deducible that m is 6. So this year there are 8+8+11 players, or 27 players in all. Landon Express Service.
